RESUME SUMMARY

Aspiring Software Developer with expertise in Java and web technologies. Strong problem-solving and analytical skills gained through practical development experience and full-stack application development. Eager to contribute to innovative software solutions while continuously expanding technical knowledge and industry expertise.

EDUCATION

Karavali Institute of Technology <i>Bachelor of Engineering-7.5 CGPA</i>	Mangalore, Karnataka 2022-2026
MDR PU College <i>Class XII – 63.4%</i>	Bengaluru, Karnataka 2020-2022
MDR School <i>Class X - 81.2%</i>	Ihole, Karnataka 2019- 2020

SKILLS

Technical Skills: Java,SQL, HTML, CSS, JavaScript, Git,

Data Structures & Algorithms

Soft Skills: Analytical and Critical Thinking, Problem Solving, Decision Making

Team Collaboration, Adaptability

AI & Productivity Tools: ChatGPT, GitHub Copilot, Prompt Engineering

PROJECT EXPERIENCE

Karavali Institute of Technology <i>.AI – AI-Driven Financial recovery and dept optimization system</i>	Mangalore, Karnataka
Developed an AI-driven financial recovery and debt optimization system that analyzes users' income, expenses, and debt to generate personalized repayment strategies. Built the frontend using React.js and the backend with FastAPI, implementing AI-based financial insights, expense tracking, predictive analytics, and real-time dashboards to improve financial planning and debt management..	
Kodnest Technology <i>Hospital Management System</i>	Bengaluru, Karnataka
Developed a Hospital Management System using Java, Spring Boot, MySQL, HTML, CSS, and JavaScript to streamline hospital operations. Implemented patient registration, appointment scheduling, doctor management, and billing modules. Designed a secure, user-friendly interface with efficient database management for improved healthcare services.	

CERTIFICATIONS

Java Full StackIntern	KodNest Technologies (Feb 2026)
Successfully completed a 16-week Java Full Stack Internship focused on Java programming, web technologies, database concepts, and application development. Enhanced analytical thinking and problem-solving abilities through practical projects, coding exercises, and structured industry-oriented learning, while gaining exposure to the software development lifecycle and full-stack development fundamentals.
